

Phase 3 Guidelines for TEAMS, DRIVERS & PARTICIPANTS at Langley Speedway

PARKING

- Park as directed by Langley Speedway – this will be a different configuration with distance between vehicles and carriers as well as facing different directions to maximize social distancing

Social Distancing

- Maintain 6' social distancing as much as possible within your team
- DO NOT visit in the pits of other teams – this is prohibited
- Participants should confine their movement to their primary work area and not visit in other areas

MASKS:

- Anyone at Langley Speedway that is a driver, team member, fan or race official is recommended to wear a mask everywhere on the property unless a different form of face shield is being worn during driving or work/maintenance on the race vehicle (example: helmet for drivers, welding face shields, etc.)

CLEANING PRACTICES WITHIN THE PITS:

- Team Owner is responsible for providing hand sanitizer for the team and encouraging use frequently
- Avoid sharing tools and if you do, clean with approved EPA cleaning solutions in between uses
- Teams are responsible for proper cleaning and disinfecting of the hauler, race vehicle, pit equipment, and tools/equipment prior, during and at the end of the event
- Wash your hands for 20 seconds with soap and water frequently throughout the entire event

PIT CREW & TEAM MEMBER SCREENING OF COVID19 SYMPTOMS:

- Prior to arrival at Langley Speedway, the Team Owner is to ask each team member to self -measure their temperature and assess symptoms. Please use the VDH Interim Guidance for Implementing Safety Practices for Critical Infrastructure Workers During Widespread Community Transmission.
- If at any time, a team member begins to feel ill and exhibit possible symptoms of COVID19, the Team Owner should contact Langley Speedway immediately.
